Profile

Victoria is a detail-oriented and results-driven Full-Stack Developer with extensive experience building responsive, scalable, and accessible web applications. Proficient in React.js, Next.js, Angular, and Node.js, with strong backend capabilities using Express, MongoDB, and GraphQL. Passionate about clean code, user experience, and collaboration, with a proven ability to contribute to both startups and enterprise-level solutions.

Education

2018 – 2023

Uyo, Nigeria

B Sc Chemistry, Univeristy of Uyo.

- I graduated from the university of uyo with second class upper honours.

As part of my experience in school,

Industrial Training (SIWES)

I had done internship with Honey well flour mills where I,

- Assisted in quality assurance and production processes.
- Gained hands on exposure to industrial food processing and safety standards.

Project

I collaborated with my project colleagues to analyze heavy metals in bouillon cubes.

- Made use of Excel for analyzing the results.

Professional Experience

06/2025

Abuja, Nigeria

Frontend Developer, Boldswitch

- Collaborated with teammates to refactor a codebase from Next.js to React.js, improving routing logic, simplifying the build process, and enhancing component reusability.
- Hands-on experience with React Native, developing cross-platform mobile applications with a focus on performance and native-like user experience.

08/2024 –

05/2025

Abuja, Nigeria

Full-Stack Developer, DLHOSolutions

- Built responsive frontend interfaces ensuring cross-device compatibility.
- Contributed to a serverless backend using AWS and GraphQL.
- Integrated APIs with Apollo Client; managed state with Redux Toolkit.
- Wrote unit tests using Jest to ensure reliability.
- Conducted code reviews and collaborated in agile sprints.
- Worked on documenting backend endpoints in Jira using Confluence for seamless team collaboration and knowledge sharing.

09/2024 –

12/2024

Remote, Nigeria

Frontend Developer, Robex Technologies

- Designed and implemented mobile-responsive UIs with Angular.
- Integrated payment gateways SDKs: Flutterwave, Paystack, and Opay.
- Actively collaborated with cross-functional teams throughout development.

01/2023

Uyo, Nigeria

Full-Stack Developer, Techroom

- Developed responsive web apps using React, Next.js, and Angular.
- Built RESTful APIs and backend systems using Node.js, Express, and MongoDB.
- Handled state management with Context API, Redux, and NGRX.
- Optimized backend performance, ensured API security, and performed thorough debugging.

06/2021

Lagos, Nigeria

Frontend Developer, TechAssembly

- Built websites that are responsive.
- Consumed Rest APIs.
- Tutoring

Skills

Soft Skills — Effective Communication, Team Collaboration, Problem Solving, Time Management.,

Tech Skills — HTML, CSS, Javascript, Typescript, Node Js, Express Js, React, Next Js, Graph QL, Jest.

Personal Projects

Warm book, (Angular, Node js, MongoDB, React Native)

Building this ebook site was a great way to learn about angular, react native for mobile and improve my backend skill.

Live Link: <https://warm-book.vercel.app/> 

Frontend: <https://github.com/Vhicky/e-book> 

Backend: <https://github.com/Vhicky/ebook-backend> 

- Developed the frontend using Angular. Ngrx was used for state management and styling was done using vanilla css.
- Developed RESTful APIs backend using Nodejs, Express js and MongoDB.
- Integrated paystack for making payment.
- Files were saved to cloud (AWS S3 bucket).
- Troubleshooting and Debugging the application.
- Learnt Rxjs.
- Developed mobile version using React Native.

Real Time Note Collaboration, (React, Node js, MongoDB, React Native)

- Developed the frontend using React and Typescript. React query was used for server state management
- and styling was done using styled component
- Developed RESTful APIs backend using Nodejs, Express js and MongoDB.
- Integrated Google Authentication using passportjs.

My Portfolio, (Next js, Framer motion, Neumorphic design)

Live Link: <https://victoriaokonnah.vercel.app/> 

Github Repo: https://github.com/Vhicky/my_portfolio 

- Developed my portfolio using nextjs, tailwind and neumorphic design.
- Worked on creating a responsive and satisfying user experience.
- Added Beautiful animations using framer motion.

Learning

- SOLID principles
- OOP principles
- Design Patterns
